rtpetaReview Chrome Extension

Installation Instructions

Here's how to install the Ripeta Chrome extension. The extension allows you to extract DOIs from the web page you're viewing and send them to Ripeta for analysis.

1. Go to https://chrome.google.com/webstore/detail/ripetareview/jangbinkddmbgcdnallpgojcipbdgdja and click “Add to chrome,” as well as “Add extension,” if applicable.
2. For better results, pin the extension by clicking on “Extensions” and then “pin.”
3. Browse the internet as usual. Any DOIs found on a page will be displayed as soon as you click on the extension. Click on the DOI you wish to explore.
4. If the paper is Open Access, a ripetaReview report will be generated for you. The approximate processing time is 10-15 seconds. You need to be registered and logged in to view the report.
